

# Make a No-Staple-Book

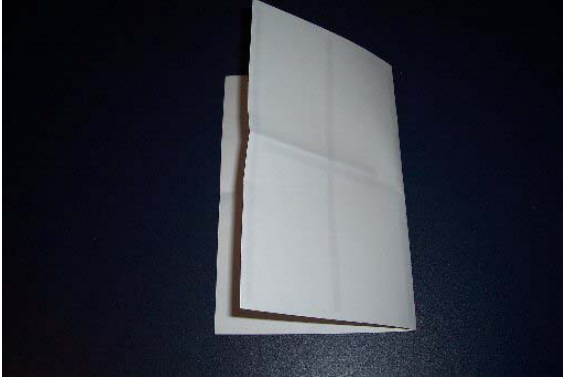

1. You will need a piece of copy or computer paper and a pair of scissors. You can use larger paper to make a larger book.

2. Fold the paper in half as shown on the photo.

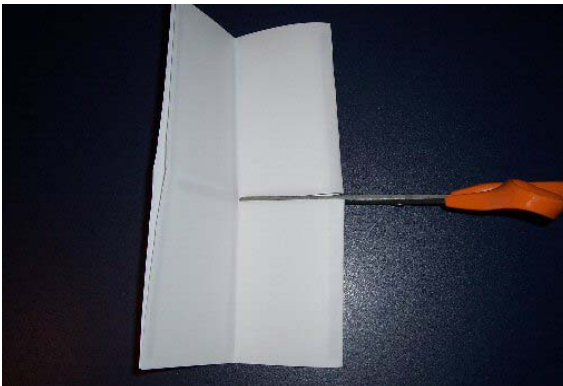

3. Unfold the paper.

4. Now fold the paper in half the other direction. Keep the paper folded.

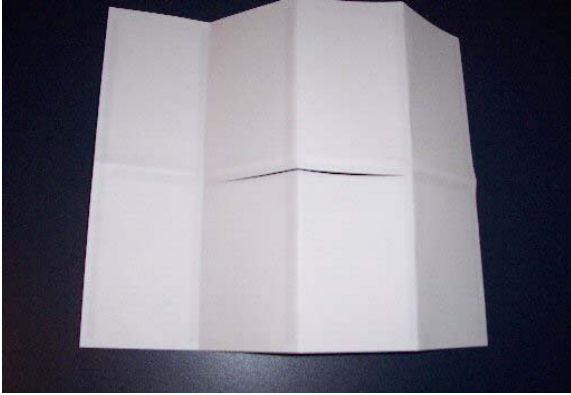

5. Now fold in half again as shown in the photo.

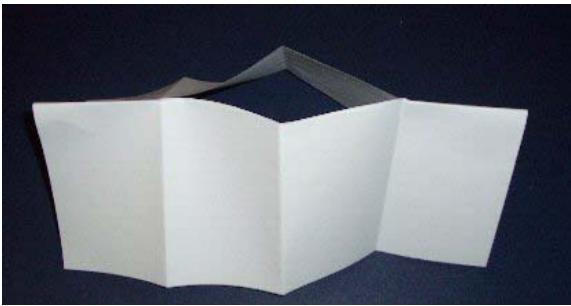

6. Unfold the last fold and cut from the folded side to the center fold line.

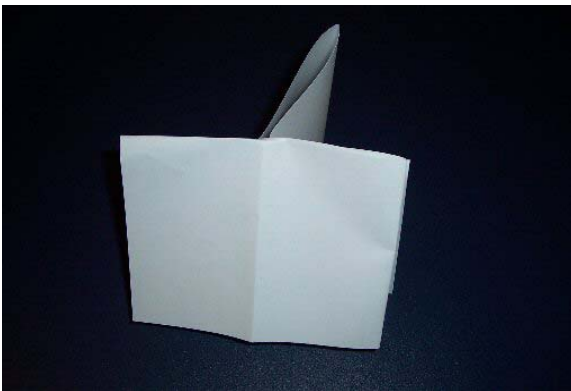

7. Your paper should look like the photo.

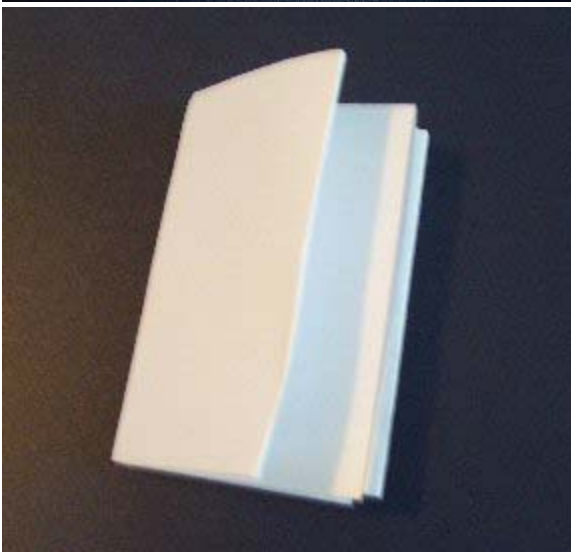

8. Open the paper as shown in the photo.

9. Now fold the paper down so the part you cut is on the top.

10. Push the book to the center. This makes the pages.

11. Crease your book. Now you are ready
