

## Make a Sun Paper Plate Fan

You will need a double heavy-duty paper plate (I bought mine at Wal-Mart), a large craft stick, and a glue stick. Print the **sun** (I printed it on yellow card stock ) and the verse (Psalm 84:11 [KJV](#) or [NIV](#)) on card stock.

Glue a large craft stick to the back of the plate.

Then glue the verse on, being careful to put glue on the stick as well as the back of the plate.

Draw a face on the sun and glue it to the front of the plate. Add color around the edges if desired.
